MEMORANDUM FOR: Deputy Director for Intelligence  
SUBJECT : Invitation to Address the Senior Seminar

25X1A 1. This will confirm the arrangements discussed with you by [REDACTED] to address the Senior Seminar on "Future Trends in Intelligence Support to the Policy Maker." Your presentation has been scheduled for 19 November from 1400 to 1600 hours. The Seminar is being held in the new Office of Training facilities, Room 1001, Arlington Chamber of Commerce Building, 4600 Fairfax Drive, Arlington.

2. As discussed, it would be most helpful to the Seminar if your presentation describes the form and substance of intelligence support provided by CIA to the policy-making elements of the United States Government, personal observations as to pressures for change in the scope of intelligence provided to policy makers, and the difficulty in meeting current requirements for coordinated views on a timely and responsive basis from the Intelligence Community. Your remarks can be flexible and include personal observations which you believe would be of interest to the participants.

3. Customarily, speakers have been taking about thirty to fifty minutes for the formal part of their presentation, but the Seminar is not wedded to this format. We would appreciate the opportunity for Seminar participants to engage in a discussion with you after your opening remarks.
